ZHERY

Introduction
As with any other Pokémon game, you are introduced to the world of Pokémon by a Professor. You choose the option to be a boy/girl, then choose your name. You will be unable to choose the names of your many rivals however.
To start the game, you are in a dream. You are standing amidst legendary Pokémon: Arceus is surrounded by Giratina, Dialga, and Palkia. They seem to be taking turns hitting Arceus. Eventually Arceus disappears and you wake up. Head down the stairs, but before you can, your mom will tell you to set your clock. Head out outside and you will be confronted by Kaori, the champion of the Zhery League. He asks you to come with him to Central City, flying on his Salamance.
When you reach Central City, Kaori leads you to Professor Jasmine and Ash Ketchum. There is a tablet in some sort of hole. Jasmine asks you to read translate since you know the ancient language called Alpha. After reading it, Jasmine wants to make sure no one (evil) can get their hands on it. Kaori summons Empoleon and fills the hole with water. Kaori and Ash will leave, when suddenly a Team Steam grunt attacks Jasmine. She asks you to pick a Pokémon from the bag:

Charmander [lvl 5]
-Scratch
-Growl

Squirtle [lvl 5]
-Tackle
-Tail Whip

Bulbasaur [lvl 5]
-Tackle
-Growl

Team Steam grunt:
>Poocheyena [lvl 2]

After the confrontation, Jasmine will allow you to keep the Pokémon you just fought with. Nickname him/her, and then she will take you back to her lab in Yellow Town. Jasmine wants you to talk to Professor Oak who is at Marfeny Lake, which is to the east of Central City. Talk to her for one last time, and she will give you some Pokeballs.

Freebies:
-Elekid at the top room of Lab (use stairs); if you say no, the pokeball containing Elekid will disappear.
-Thunderstone - talk to boy in the house on the South-West of town.
-Max Potion - talk to girl in South-West of town.

Master Ball Glitch
There happens to be a glitch where you can get as many Master Balls as you want. Of course, Master Balls make catching legendaries/shinies easier, but there isn't much fun in that. Try catching legendaries with different Poke Balls. Now, if you don't have that adventurous spirit in you, here's the Master Ball glitch:
1) The Master Ball is located in the bottom-left tree on the top floor (where you fight the two admns.)
2) Press A on the plant. You will receive the Master Ball.
3) Take two steps up, and press Start.
4) Go down and press A on the plant again. You will receive another Master Ball.
5) Keep repeating steps 2-4 until you have the desired amount of Master Balls.

-Dragon Fang - talk to the cooltrainer in one of the houses.
-Axew - talk to another cooltrainer in one of the houses.

The Gym and Mt. Draken (the cave near the Gym) are both closed. Take the tablet and deliver it to Professor Jasmine. Fly to Yellow Town!
Once you give her the tablet, she will tell you a story about the legendaries. Once she is done, fly back to Drakebreath City and enter Mt. Draken.

Sidewinder : I will add to this walk through, if I may, only to give people who have beaten the Zehery League a chance of making it further than just the league. I am now going to link you to the **Youtube Playlist**.

Yea, his voice and the way he talks is SO aggravating, but its the only complete Light Platinum guide out there. I've checked. He is a Walk through Maker so all his videos are about walkthroughs. Most if not all are Pokémon. A lot are Hacks, which is nice, considering hacks don't have Walkthroughs.

Sidewinder, This is AWESOME! It has really helped me so far in the League (Only 6 badges into the game!) and I will continue to use it throughout my playing time! Thanks a lot man!

@Sidewinder What happens if I lose to Zero in the Distortion world? I was sent to the Pokémon center in Drakebreath City, and I went back to Mt. Draken and no one was there. Any other way I can capture Giratina? Please help anyone.

Amped24 : You have to save before you fight Zero, you can't enter it again, as far as my very rusty memory of the game goes >.<

Thanks for the guide, it definitely saves me the trouble of having to go on Youtube and looking up what you have to do. You have a great descriptive guide that's easy to read. It's a little disappointing that this guide only goes through the first region, but this guide was great either way.

TrainerEmerald : Don't know if you still need the info but I had my team at the the mid- to high 60's when I fought the elite 4 and champion and I only had to use a few revives. You may want to get low to mid 70's if you want it to be far simpler though. if you need to grind to lvl up I suggest the route to the east of serenity city and fight only the ones with good exp while having lucky egg equipped.

Sidewinder : Where do you capture carvanha? I heard you can catch it in Marfeny Lake but I do not have any means of getting there at the moment. Any other areas that are accessible across the ferry?

Thanks,
-Xino
